|---|---|---|
| April 16-17, 2010 | Dallas, TX | Dallas/Addison Marriott Quorum |
| April 30-May 1, 2010 | Orlando, FL | JW Marriott Grande Lakes |
| May 21-22, 2010 | Scottsdale, AZ | Fairmont Scottsdale (formerly Fairmont Princess) |

P.R.O.P. (Pilot's Review of Proficiency) 2010 is coming, and we have contracted with some fantastic hotels for the seminars next year. Dallas, Orlando, and Scottsdale will host P.R.O.P., and you'll want to bring the family to partake of the benefits of these great hotels at great prices.

We have several new speakers scheduled: Ralph Hood, pilot, humorist and all around good-ole boy will entertain us during lunch. Dr. David Strahle will present a 2-hour lecture on Airborne NEXRAD Radar at each seminar on Friday afternoon. These two speakers are interesting and will add a new dimension to P.R.O.P. The usual compliment of speakers will also be presenting: Pat Cannon, Rick Wheldon, Helmuth Eggeling, Tom Goonen, Greg Feith, and several Service Center personnel.

In each city, SimCom will be offering a free 2-hour Pinch Hitter course as a breakout session. This course is a must-do for your spouse, friend, owner or anyone else who doesn't pilot your MU-2 but who flies in it regularly. In Orlando, a1/2 hour simulator flight will be included as part of the Pinch Hitter course.

A TPE-331 Engine Course will be offered in Scottsdale on the Wed.-Thurs. before the start of P.R.O.P., and if you haven't taken this course, or if it's been a while since you did, please consider attending. The instructor will tell you things about your engines that you never knew before! Well worth the fee that is charged for this course.

As always, Mitsubishi Heavy Industries America will be in attendance, along with Turbine Aircraft Services and the Service Centers. We will be making a concentrated push to get new owners and operators, along with the "old" MU-2 owners and operators to attend P.R.O.P. next spring. It's free to everyone – and you'll not find a better bargain anywhere.
