

MITSUBISHI MU-2 TECHNICAL PUBLICATIONS

This document contains a list of the current Manuals, Catalogs and selected Service Information for Mitsubishi MU-2B series aircraft, including the latest applicable revisions. A brief discussion of Publication Revisions and Reissues is presented below.

Publications Revisions and Reissues

Mitsubishi MU-2B series aircraft are certified under one of two type certificates, either A2PC or A10SW. A10SW aircraft carry the letters "SA" at the end of the aircraft serial number. All aircraft manuals for A2PC aircraft carry a part number starting as YET xxxxx (example: YET 67164) where xxxxx is a specific number. All A10SW aircraft manuals carry part numbers starting as MR-xxxx (example: MR-0342).

As engineering, operational or maintenance changes become necessary, revisions and/or reissues of applicable publications are prepared and issued by Mitsubishi Heavy Industries, Ltd. (MHI), Nagoya, Japan, and printed and distributed by Mitsubishi Heavy Industries America, Inc. (MHIA) in Addison, Texas. Revisions incorporate a number of changes and are only part of a book. When ordering a revision, you will receive only the pages of text which have been updated to reflect the most recent changes to the respective manual. A reissue reflects complex changes or a large number of changes and is a complete book. Reissues are identified by a numerical suffix after the basic part number. Example of paper publication part numbers:

- MR-0342 – Basic Part Number of Parts Catalog
- MR-0342 Rev 1 – First Revision to the basic Parts Catalog
- MR-0342-1 – First Reissue of the basic Parts Catalog
- MR-0342-1 Rev 1 – First Revision to the First Reissue to the Parts Catalog

When complete books are ordered, all revisions issued to date will be included. In the above example, to get a complete up-to-date book, order Part Number MR-0342-1. Airplane Flight Manuals and Pilots Operating Manuals will be delivered together as a package and never sold separately. Maintenance Manuals and Wiring Diagram Manuals will also be delivered as a package and never sold separately. To order these packages use the aircraft serial number and the part number for the Airplane Flight Manual or the Maintenance Manual.

Future revisions will be sent automatically if the person is currently registered with MHIA Publications Subscriptions, Tel: (972) 934-5480, and has paid a subscription fee. (Exception: AFM/POM revisions, Service Information, and Pilot Checklist revisions will be sent to each aircraft, regardless of subscription status.) Revisions are available for a period of 18 months from the date of issue. After that time it will be necessary to order a complete handbook which will include all revisions and amendments.

Service Information

Mitsubishi MU-2 Service Information consists of Service Bulletins (SB), Service Recommendations (SR), Service News (SN) and Service Letters (SL). Service information that applies to A2PC aircraft will be numbered as SB xxx or SN xxx (example: SB 035). Service information that applies to A10SW aircraft will be numbered as SB xxx/xx-xxx or SN xxx/xx-xxx (example: SB 072/24-001). Any of these documents may be amended as indicated by a revision letter and date. Some Service News and Service Letters may apply to both A2PC and A10SW aircraft and will be designated under two numbers.

Periodically, MHI publishes a listing of all Service Information, applicable to either A2PC or A10SW aircraft. Each Service Information index will apply only to A2PC aircraft or A10SW aircraft. Either index can be obtained at no cost by calling MHIA Publications at (972) 934-5480. The current indices are:

- A2PC aircraft:Service News 047 rev. Z, dated June 16, 2017
- A10SW aircraft: Service News 034/00-001 rev. S, dated June 16, 2017
